

Beautifully finished, our Inspire range of heaters are the highest quality on the market and are available in a number of finishes ranging from white panels to picture and glass panels. Manufactured to the highest standards in Germany, they are designed and built to last a lifetime and come complete with a 10 year warranty.

INSPIRE GLASS Far Infrared heaters are made from high-quality reinforced safety glass, (ESG) combining sophisticated designs with optimum safety and energy efficiency, a system never out of style. This sleek, beautiful design will enhance your home or office with class and elegance but also guarantee an improved level of comfort. Enjoy the benefits of Far Infrared healthy heating in your home or office.

The **INSPIRE GLASS** heaters come in 4 different sizes and are available in white and black. A selection of optional frames is available (with surcharge).

The Inspire panels are specifically designed to be maintenance free and to last for many years. For this reason, and to enable accurate temperature control and efficiency, the panels do not have any in-built controls and must be used in conjunction with Herschel iQ controls or equivalent. This will also ensure full compliance with European energy saving regulation (ERP Lot 20).

TECHNICAL DETAILS

SURFACE: ESG safety glass
COLOUR: White and Black
REAR PANEL: Sheet steel, powder-coated, mounting points
SURFACE TEMPERATURE: App. 85°C - 95°C
VOLTAGE: 230V 50Hz
PROTECTION CLASS: IP 54
CABLE: 1.8 m power cable
INSTALLATION: Wall mounted

CERTIFICATES:

WARRANTY: 10 years
 (Refer to the warranty policy on Herschel-infrared.com for more detail including exclusions)

	Black matt	AP-RA 7021	
	Walnut structured	AP-RA 7318	

Printed colours may vary from the original articles for illustrative reasons. Subject to technical changes and changes in the range and availability.

The heated areas are an indicative guide only. The actual heated area will depend on the heat loss of the room which is influenced by many factors including construction type, external walls, window area and insulation levels. Always use the Herschel online calculator or contact your dealer or installer for an accurate specification.

The Inspire panel comes with two mounting brackets. When installed, the front of the panel will extend a total of 5cm from the wall. The panel will radiate heat into the room and will perform best when mounted in a position free of any direct obstructions such as a sofa. The panel will need to be wired into the mains and this should be carried out by a suitably qualified electrician. Refer to installation instructions for full details.

6 REASONS WHY

- ✓ 100% natural
- ✓ Heats objects, not the air
- ✓ Less damp and mould
- ✓ Reduced energy use
- ✓ Maintenance free
- ✓ CO2 free when used with renewable energy
