

# Electrorad Digi-Line

## Quick Start Guide

- 1** Turn the power on by pressing the power switch on the bottom right hand side.
- 2** Scroll to comfort  mode using the left and right navigation keys, then press OK. Adjust the temperature using the (+) and (-) keys to your personal preferences.
- 3** To set the reduced temperature setting, for use during the night for example, scroll to the reduced  mode using the left and right navigation keys, then press OK. Adjust the temperature using the (+) and (-) keys to your personal preferences.

For more features, including the use of a radio frequency programmer to set date/time etc, please refer to the full Installation, Operating & Instruction manual which can be found within the packaging.

Also, do not forget to complete and return your warranty card.
