

The most cost-effective and efficient frameless far Infrared panel heater on the market, the Select XL from Herschel is ideally suited to the domestic and commercial sectors including hotels, homes, student accommodation and rental properties.

The frameless Select XL range is available in 250W through to 1000W and employs the latest, newly developed Herschel heating element which is up to 10% more effective than competitor products.

With a high quality aluminium casing, the Select XL features Herschel's new and innovative easy-fix bracket. No other system is as simple to install and as secure once mounted. The discreet, ultra slim, white panels are designed for ceiling or wall-mounting and will complement any interior. They are TUV approved, have an IP44 rating and come complete with a five year warranty.

The Select XL panels are specifically designed to be maintenance free and to last for many years. For this reason, and to enable accurate temperature control and efficiency, the panels do not have any in-built controls and must be used in conjunction with Herschel iQ controls or equivalent. This will also ensure full compliance with European energy saving regulation (ERP Lot 20).

TECHNICAL DETAILS

- SURFACE: Aluminium
- COLOUR: White
- HEATING ELEMENT: Herschel COSIX® Cell Technology
- REAR PANEL: Aluminium with Herschel EASY-FIX System
- FRAME: Frameless
- SURFACE TEMPERATURE: App. 85°C - 95°C
- VOLTAGE: 220-240 V, 50/60Hz
- PROTECTION CLASS: IP44
- CABLE: 2.5m power cable
- INSTALLATION: Wall or ceiling mounted
*For ceiling mounting, use suitable fixings or connect to ceiling joist to secure heaters safely
- CERTIFICATES:
- WARRANTY: 5 years
(Refer to the warranty policy on Herschel-infrared.com for more detail including exclusions)

6 REASONS WHY

- ✓ 100% natural
- ✓ Heats objects, not the air
- ✓ Less damp and mould
- ✓ Reduced energy use
- ✓ Maintenance free
- ✓ CO2 free when used with renewable energy

The heated areas are an indicative guide only. The actual heated area will depend on the heat loss of the room which is influenced by many factors including construction type, external walls, window area and insulation levels. Always use the Herschel online calculator or contact your dealer or installer for an accurate specification.

The Select XL panel comes with one EASY-FIX mounting bracket. When installed, the front of the panel will extend a total of 5cm from the wall. The panel will radiate heat into the room and will perform best when mounted in a position free of any direct obstructions such as a sofa. The panel will need to be wired into the mains and this should be carried out by a suitably qualified electrician. Refer to installation instructions for full details.
