

Delivering the very latest in design and technology the brand new Select XL Glass Towel Rail is the ideal heating solution for any bathroom looking for a designer finish.

Featuring innovative dual-element technology from Herschel the new Select XL Glass Towel Rail combines highly efficient infrared heating of the bathroom with low energy towel warming.

Available in a pure white glass finish, combined with two chrome rails, the ultra slimline Select XL towel rail heater provides the perfect choice for homes as well as commercial bathroom applications within the hotel and hospitality industry.

The low consumption 500W dual purpose designer electric heater comfortably heats the room using infrared technology which also helps in the reduction of damp and condensation. The lower area provides effective drying and warming of towels.

Easy to install and control with the addition of Herschel iQ thermostatic controls this is designer bathroom heating at its finest.

The combined infrared and towel heater utilises dual element Herschel COSIX © Cell Technology, with a white powder-coated aluminium rear case incorporating Herschel's EASY-FIX mounting system. The front emitting surface is safety glass.

The Select XL panels are specifically designed to be maintenance free and to last for many years. For this reason, and to enable accurate temperature control and efficiency, the panels do not have any in-built controls and must be used in conjunction with Herschel iQ controls or equivalent. This will also ensure full compliance with European energy saving regulation (ERP Lot 20).

DUAL HEATING TECHNOLOGY
THE PERFECT COMBINED INFRARED AND TOWEL HEATER

TECHNICAL DETAILS

SURFACE:	ESG 6mm Safety Glass
COLOUR:	Pure White
HEATING ELEMENT:	Herschel COSIX© Cell Technology
REAR PANEL:	Aluminium with Herschel EASY-FIX System
FRAME:	Frameless
SURFACE TEMPERATURE:	App. 85°C - 95°C
VOLTAGE:	220-240 V, 50/60Hz
PROTECTION CLASS:	IP 45
CABLE:	2.5m power cable
INSTALLATION:	Wall mounted

CERTIFICATES:

WARRANTY: 5 years
(Refer to the warranty policy on Herschel-infrared.com for more detail including exclusions)

AVAILABLE MODELS

Model	Part No.	Dimensions	Weight	Rated Power	Heated Area
GLASS TOWEL RAIL	XL-HS500-TRW	60 x 130 x 13cm	22kg	500W	6-12 m ²

6 REASONS WHY

- ✓ 100% natural
- ✓ Heats objects, not the air
- ✓ Less damp and mould
- ✓ Reduced energy use
- ✓ Maintenance free
- ✓ CO2 free when used with renewable energy

The heated areas are an indicative guide only. The actual heated area will depend on the heat loss of the room which is influenced by many factors including construction type, external walls, window area and insulation levels. Always use the Herschel online calculator or contact your dealer or installer for an accurate specification.

The Select XL panel comes with one EASY-FIX mounting bracket. When installed, the front of the panel will extend a total of 13cm from the wall. The panel will radiate heat into the room and will perform best when mounted in a position free of any direct obstructions such as a sofa. The panel will need to be wired into the mains and this should be carried out by a suitably qualified electrician. Refer to installation instructions for full details.
